I claim:

1. An educational toy kit, comprising:

   (a) a plurality of pieces,

   (b) each of said pieces having one of five geometric shapes,

   (c) said five geometric shapes selected from a group consisting of C-shapes, U-shapes and I-shapes, and

   (d) whereby said pieces are configured to be joined to form alphanumeric characters.

2. The educational toy kit as claimed in claim 1, wherein the group of alphanumeric characters are selected from a group consisting of letters and numbers.

3. The educational toy kit as claimed in claim 1, wherein each of the pieces are in a plurality of sizes.

4. The educational toy kit as claimed in claim 1, wherein said pieces are made of wood material or plastic material.
